MOTOR YACHTING UNDER 40-FEET REIMAGINED

Introducing a motor yacht that is incredibly nimble and a joy to skipper and handle. Superbly powered and structurally strong. She's been made for family yachting adventures. We've christened this superb yacht the Riviera 39 Open Flybridge.

She is an enviable combination of class-leading, sports-inspired looks, performance, open flybridge and sports-influenced open cockpit. An Open Flybridge under 40-foot capable of spiriting you and the family away for adventures in comfort, safety and luxury.

With an advanced, new broad-beam hull and deck design making so much more possible. On the accommodation deck, luxuriate in two generous, superbly-appointed staterooms and a designer bathroom. Saloon living is spacious and comfortable. Silky smooth twin Volvo D6 IPS turbo diesel engines are at your command from the main or daybridge helms.

The Riviera 39 Open Flybridge. Luxury motor yachting reimagined.

THE WIDE BEYOND EXTENDS FROM HERE

This is a 40-foot luxury motor yacht that promises so much. So many destinations near and further afield. So many special entertaining possibilities. So many unforgettable adventures.

It all begins from the moment you step aboard from the marina, swing open the transom door and step into the wide, welcoming cockpit. An area expertly designed to impress on first appearances, yet enormously practical over any number of memorable cruises. Generous proportions attest to the success of the broad-beam deck design. It's easy to picture the whole family seated in style and comfort on luxurious fixed and optional seating. You can also see them having the time of their lives sports fishing, swimming, diving or kayaking from this functional space.

Feeling peckish after all the activity? Set across the transom and facing forward, you will find the gourmet, LED-lit barbecue centre with sink and food preparation area. It's hard to imagine a better spot to gather, relive and share all those water-bound moments you've just shared.

Below the barbecue centre discover a handy storage compartment large enough for your tender outboard, oars, fenders, lines and fishing rods. Speaking of clean and clever design, forward to port a comfortable lounge comes with a cool box underneath and a refrigerator or freezer option. On the starboard side, an icemaker is housed in its own compartment while a storage or fish bin is built into the cockpit floor. It's typical of how Riviera builds more thought and pleasure into every onboard experience.

EASY ACCESS, GREATER LUXURY.

The Riviera 39 Open Flybridge is built to journey in comfort and style. Naturally, building in class-leading safety is central to realising the vision. Look forward to safe passage wherever you venture on board, wherever your 39 takes you.

Making your way to the foredeck via the side decks is a simple exercise. The wide side decks feature thoughtfully-placed handrails, a high side and bow rail and raised 100mm bulwarks, ensuring safety and comfort. Guests aged seven to seventy, as well as pampered four-legged ones, will feel confident and sure-footed.

Once safely on the foredeck, look for the anchor lockers storing a range of anchoring equipment concealed from the elements and view. But of course, you may be up here for a much more indulgent reason.

The foredeck itself is a retreat where you feel closer to nature and far removed from a work-weary world. Up here your relaxation will ascend to a new level. Assisting you on your journey to calm is the large, optional double sunlounge pod. With integrated backrests and drink holders, life takes on a whole new perspective.

LIVING IT UP INSIDE AND OUT

Easy, flowing access between cockpit, galley and saloon – Riviera motor yachts are renowned for this worldwide. It is luxury yachting with more. Alfresco living, Australian style, that allows for fast and secure closure between different areas when the weather or elements demand. The Riviera 39 Open Flybridge draws upon this tradition.

Venture inside from the cockpit through the stainless steel framed, tempered and tinted glass centre door. Impressive? Absolutely. As is the awning window opening out from port side aft helping connect inside and out. To starboard aft, you'll discover the gourmet galley.

Everything the creative chef could want is at hand. An electric cooktop with under-bench convection microwave takes pride of place. The sink, food preparation benchtop and deep drawer fridge are all within easy reach. So too are other guests and all the memorable times and laughter that flow between the various living areas, inside and out. All thanks to inclusive and clever Riviera design.

Did we mention the saloon views? Simply breathtaking. Wrap-around glass windows frame an ever-changing series of vistas. A toast to idyllic surrounds may well be in order as dinner is served in the generous dining area with L-shaped seating, opposite the galley on the port side. After dinner, the luxurious lounge opposite is calling. Settle back and let the conversation flow, or perhaps quietly reflect on how fulfilling life is aboard your Open Flybridge.

After dinner, you may wish to relax and enjoy the TV located forward of the lounge. Viewable from within the saloon and from the cockpit, your entertainment options also include AM/FM radio and CD sound system with iPod interface.

STEP FORWARD SKIPPER

The experience of skippering a Riviera 39 Open Flybridge is the definition of *confidence*. Everything at the main saloon helm is designed to impart total confidence.

So, step forward to port and slide into the plush captain's chair. Don't worry if you have limited skippering experience. If you can drive a luxury, modern car you can skipper this spirited sports yacht. Seasoned skippers will appreciate exciting new levels of handling, performance and economy.

Wrap your hands around the sporty leather steering wheel. Just for you, right? Now reach for the joystick by your side. The confidence and control that it delivers, pivoting your yacht into tight quarters, defies description. You simply must experience it for yourself.

What about the instrumentation? It's state-of-the-art. The Volvo Penta Glass Cockpit System is supremely easy to follow and read. World-class electronic navigational aids are on display on large, multi-function screens. As are all of your advanced operating systems. Touchscreen menus continually update everything you need to know: engine system performance; navigation information; full vessel intelligence.

Adding to your confidence is class-leading power-to-weight ratio, enhanced torque, impressive fuel efficiency and exhilarating performance from twin Volvo D6 IPS 600 turbo diesel engines delivering 440hp. For further peace of mind, all your Volvo Penta engine components, electronics and drives are covered by a comprehensive 5-year limited warranty.

STEP UP TO THE FLYBRIDGE

Touring every aspect of the 39 Open Flybridge is a delight. Climb the stainless steel stair-ladder up from the cockpit. You're about to inspect the most spectacular of all - the open flybridge captures the spirit of freedom and escape at the heart of this yacht.

Up here with the breeze in your hair, at one with sea and sky, a deep sense of happiness pervades. A feeling made to share with friends and loved ones. So, we've designed this space for exactly that. Stretch out and take it all in from the spacious, L-shaped lounge aft which also easily converts to a large sunpad. Because you can expect your family or friends to be drawn to such attractive surrounds, we've built in a plush, port side forward lounge adjacent to the helm.

Clever design-thinking allows you to move the helm seat backrest forward or aft to create a U-shaped seating arrangement. For these occasions, a removable table on its own pedestal may also come in handy. Time to celebrate. The wet bar with hot and cold water and cup holders is within easy reach. Storage is also taken care of with two isolated, vibration-free storage lockers forward with even more space under the forward lounge. Stainless steel hand rails allow safe movement around the flybridge.

What could possibly add to this image of open flybridge perfection? What else but a second sports day-helm station positioned forward and above it all in a unique location.

A MASTER STATEMENT IN COMFORT

Walk in, look around, be inspired. Feel the warmth and quiet ambience. Then feel immediately at home. Yes, Riviera designers have the master stateroom just right.

Stepping down the few stairs from the saloon, the space is very welcoming. A place of light and luxury. Bright and airy with hull windows on both sides filling the room with soft, filtered light. A deck hatch overhead introduces fresh sea air if desired. Distinctive designer touches add that timeless Riviera elegance. Much more than a luxury bedroom, this is a private retreat. Naturally, plush carpet cushions your feet.

The master's robe to port is a vision in highly-polished timber with fragrant cedar lining and auto-LED lighting. A fitting place to store a selection of leisurewear and personal items. However, as the 39 Open Flybridge is made for longer escapes, our designers have thoughtfully built in handcrafted overhead lockers and shelving on both sides as additional storage. First and foremost the master stateroom is a place to rest, renew and sleep. The master's crowning glory is a queen-sized, fully walk-around bed with supremely comfortable innerspring mattress. Fun-filled onboard days culminating in a great night's sleep.

Before you drift off for the night, how about a little light entertainment? You can outfit the master with a flatscreen TV and integrated sound system option. Or you may prefer luxurious peace and quiet. It's your sanctuary, your choice. Your ensuite bathroom with two-way access is just next door. Designer-appointed and generously proportioned, it features a frameless walk-in shower, full vanity and basin, superb timber drawers and large, well-lit mirrors.

LOOK AFTER YOUR GUESTS

Luxury on the 39's accommodation deck extends further than fine furnishings and appointments. It is that *special* luxury owners so enjoy of treating their guests to the very best. The guest stateroom is where you will warmly welcome up to three fortunate family or friends in luxurious, Riviera style. All their accommodation needs have been considered and thoughtfully integrated.

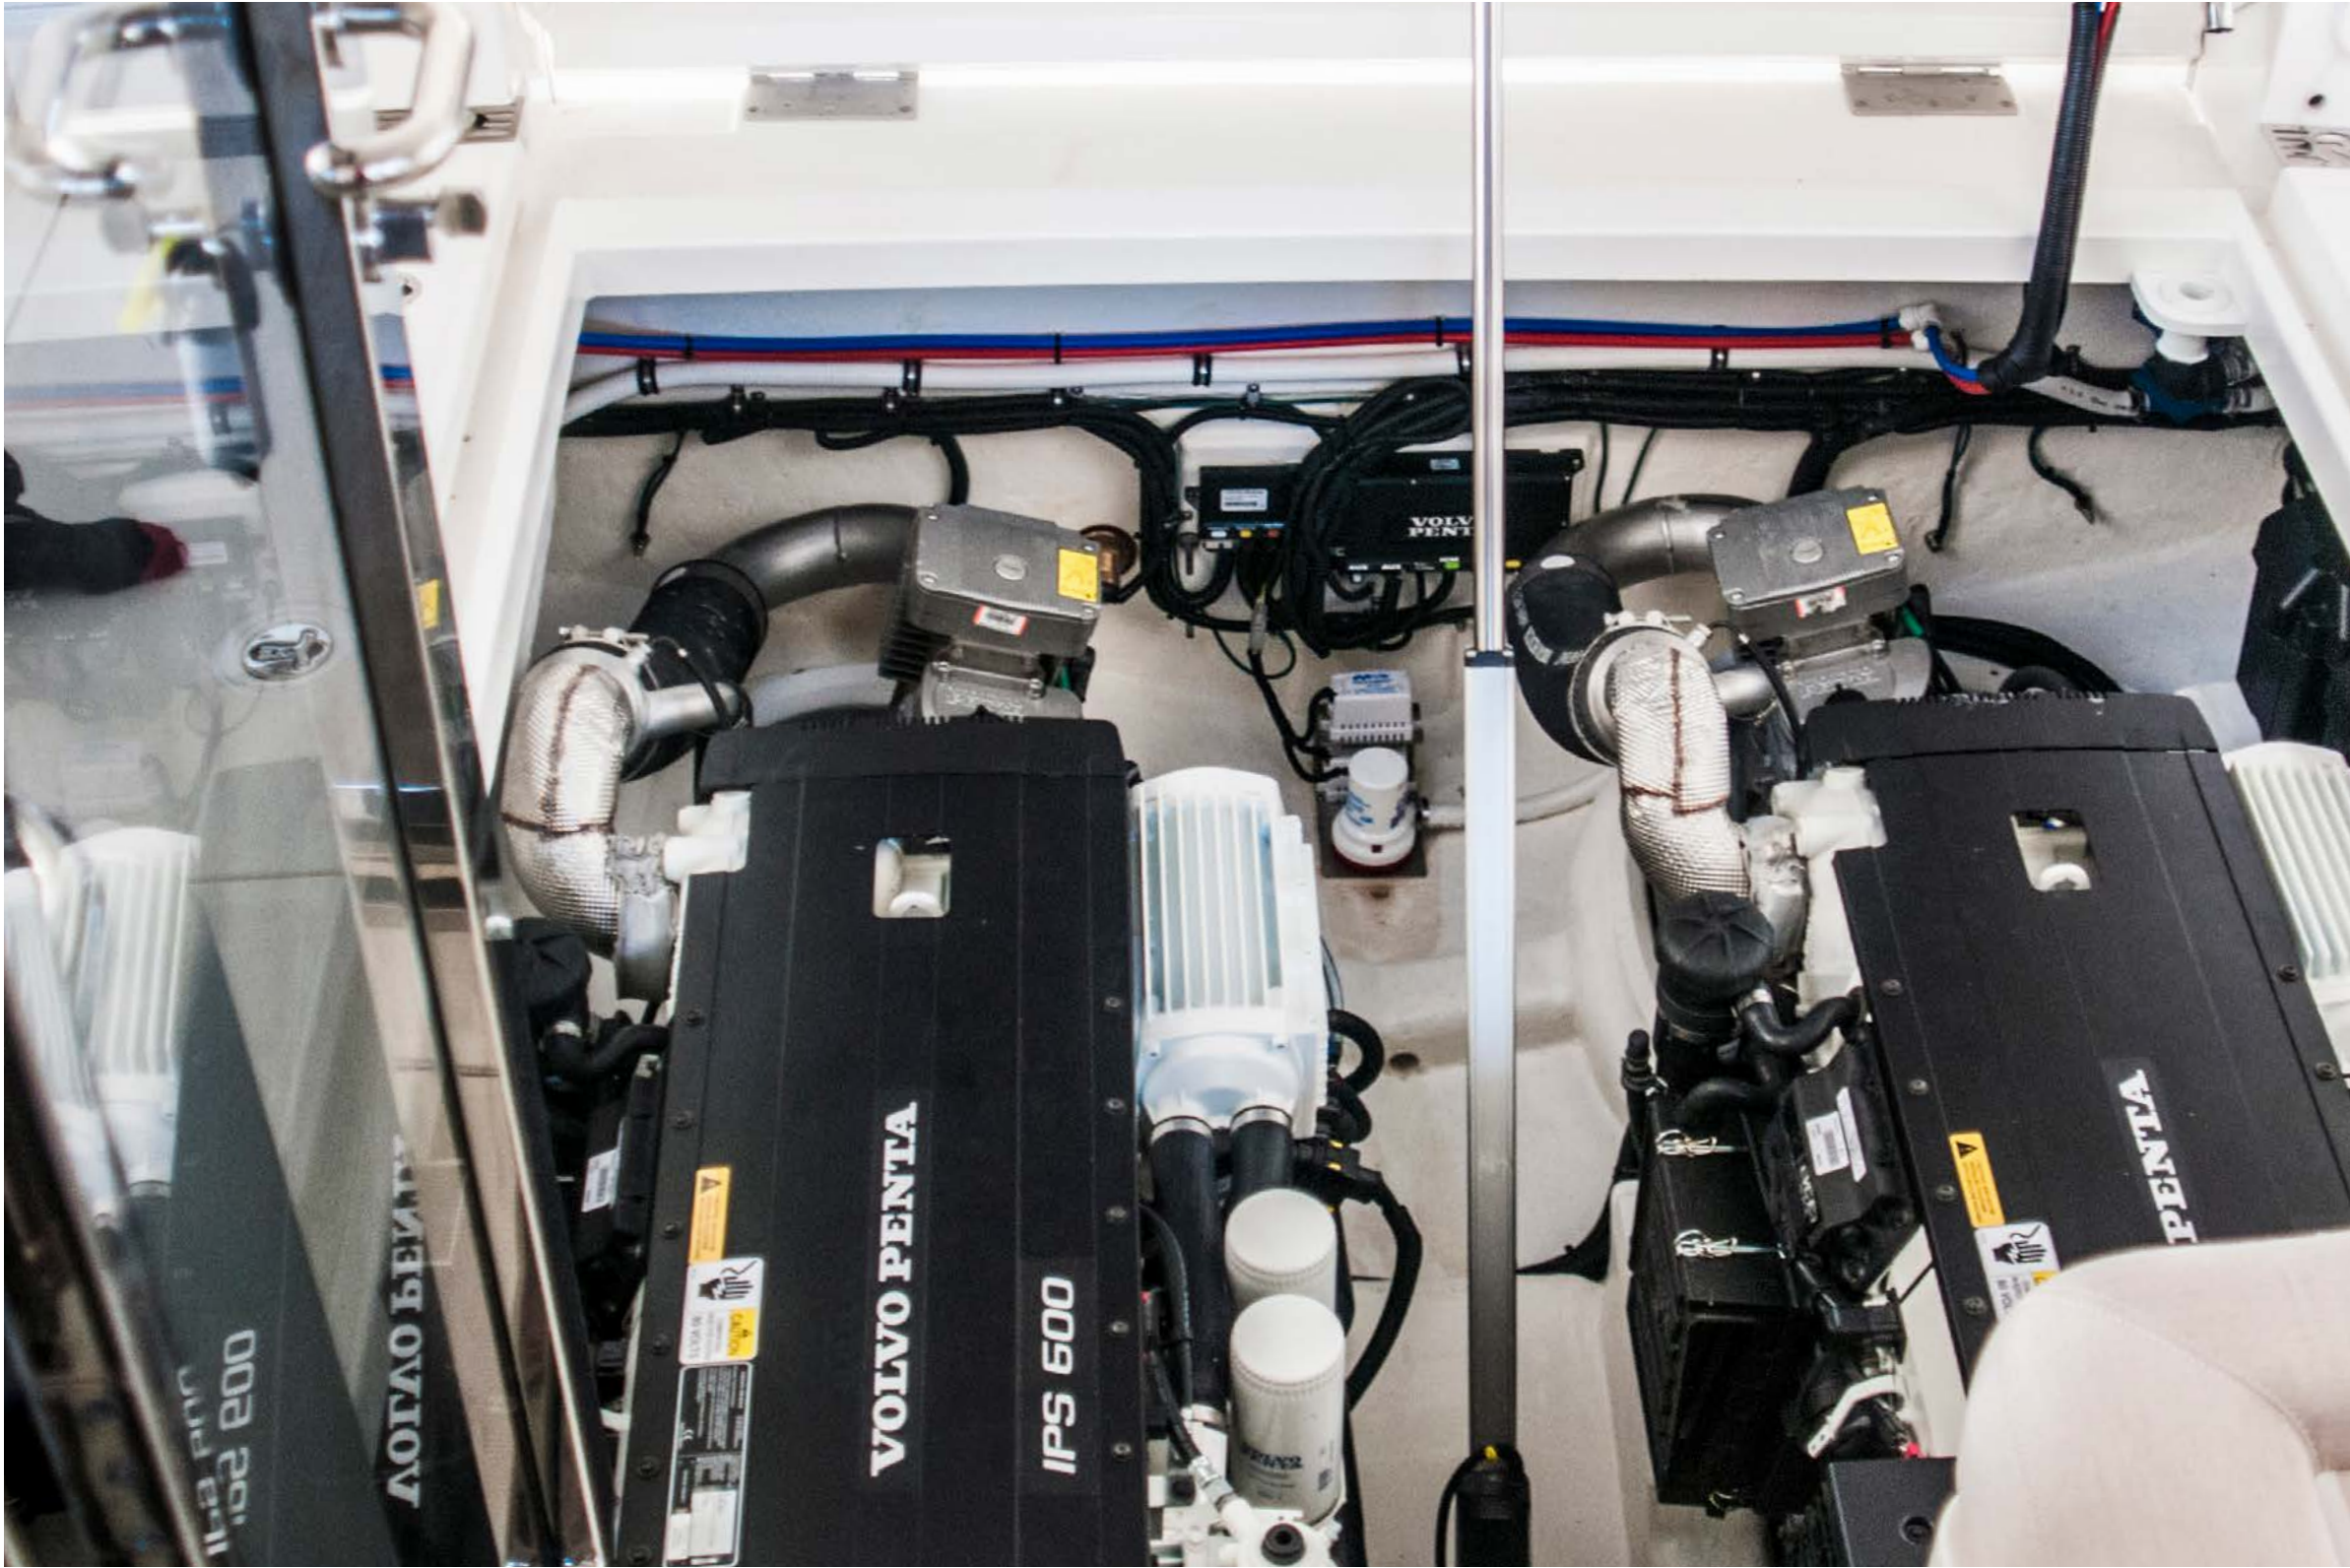

They'll store their clothes, personal items and valuables in a superbly handcrafted timber wardrobe located just inside the stateroom's entry. They'll appreciate the plush carpet at their feet. And later, at the end of another exciting day, appreciate the LED lighting that illuminates the space. Your guests will have only praise for the generous hull windows with opening portholes to both port and starboard. More than a design highlight, they allow the space to be filled with light and fresh air to create a desirable atmosphere.

Your guests will have a choice of three adult-sized single berths, two to starboard and the other to port. By simply adding an infill, they can easily convert the twin starboard berths to a large double bed. Ample storage options are included under the twin beds, along with a clever two-metre storage cabinet overhead for safeguarding rods or life jackets.

It all adds up to an accommodation experience certain to make guests comfortable and welcome, and owners proud.

ENGINEERING EXCELLENCE

The clean and uncluttered engine room – with acoustic and thermal insulation and LED lighting – highlights the skilled consideration for which Riviera is renowned globally in terms of engineering.

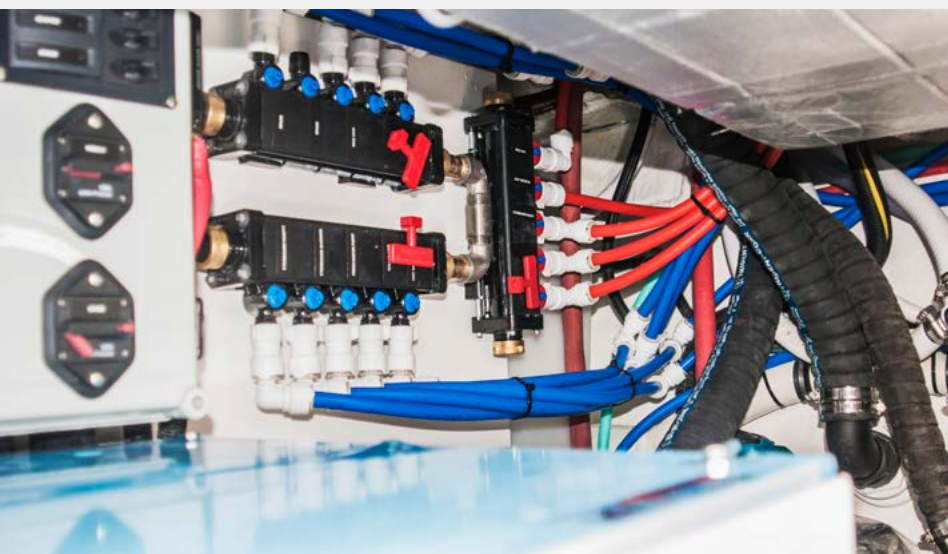

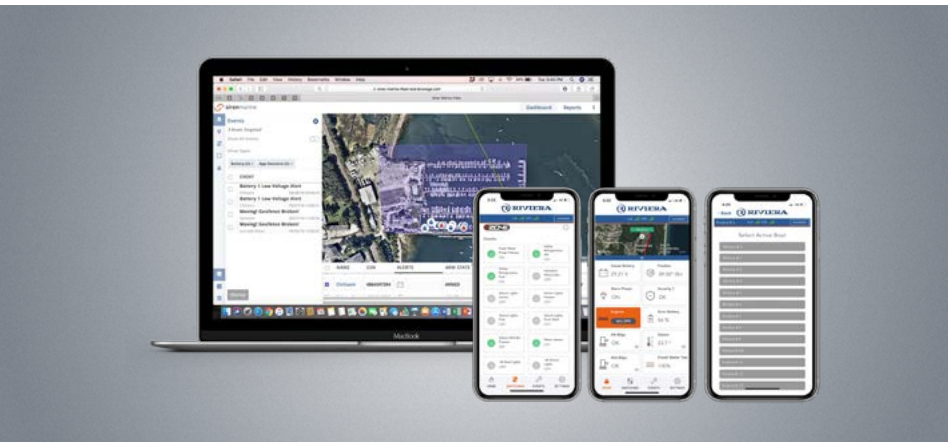

The impressive commercial air-intake system helps keep the engine room temperature well below the manufacturer's formal recommendation, reducing fuel consumption even further. While the air conditioning units feed condensation water into the common drain lines located on either side of the yacht, which drain aft and overboard.

All onboard drains also feed into these common drain lines, while an advanced mist-elimination system with vanes draws moisture from the air and feeds directly overboard. Two automatic bilge pumps with manual override are located at various points throughout the hull and also pump directly overboard.

ELECTRICAL EXCELLENCE

All batteries on board the 39 are maintenance-free – to ensure carefree boating – and housed in special battery boxes in accordance with the American Boating & Yacht Council (ABYC) and European Union's CE industry standards.

The Mastervolt AC/DC inverter provides power to the icemaker and entertainment systems, ensuring whisper-quiet relaxation at anchor. LED lighting features throughout the yacht and provides trouble-free boating while reducing electrical current draw. The lamps use less than 10 per cent of the power required to run a halogen lamp and no bulbs means no maintenance and long service-life. Additionally, Residual Circuit Interrupter (RCD/GFCI) provides protection over the entire yacht and also complies with ABYC and CE standards for safer boating.

39 OPEN FLYBRIDGE SPECIFICATIONS

Length Overall <small>(inc. swim platform and bow sprit)</small>	13.27 m	43' 6"	Sleeping Capacity	5 persons

CLARIFICATION AND OUR CARE FOR YOUR INFORMATION

* Length of the hull (Lh) to ISO8666: includes all structural and integral parts (i.e. the moulded length of the hull). It excludes parts that can be removed in a non-destructive manner without affecting the structural integrity of the craft (e.g. pulpits, outdrives, driving platforms, rubbing strakes).

** Dry weight represents the estimated minimum weight of a yacht with standard engines and options, no fuel or water on board, no equipment or provisions and no personnel. The stated dry weight may be exceeded.

*** Denotes net tank capacity. For useable capacity do not rely on more than 90% of tank capacity. Actual capacity will vary according to yacht trim and sea state. Speeds are subject to normal weather conditions, fuel and/or water levels, passengers and equipment loads.

Due to the constant refinement of specifications and design by Riviera Australia, the information in this document may change without notice. Specifications may vary with time and by region. Some images or illustrations in this brochure may include options or custom details. Please note that as safety equipment specifications or standards vary by country, this aspect of your purchase will need to be completed by you and/or your Riviera representative. Please refer to your Riviera representative for specific warranty cover and the latest detailed list of inclusions and options prior to purchase.

RIVIERA TODAY

Welcome to the largest luxury yacht-building facility in the Southern Hemisphere, our purpose-built, state-of-the-art 16.8 hectare site at Coomera, Gold Coast, Australia. Our proud heritage is a significant point of difference with the experience gained over 42 years launching almost 6,000 luxury motor yachts. Handcrafting yachts internationally-praised for their peerless quality, materials, structural strength, ease of operation and fine luxury finish.

Safety at sea is paramount and today's Riviera yachts are renowned for their blue water capability. So too is the passion for excellence shared by our award-winning Riviera team, maintaining a tradition of enduring quality that means your Riviera retains its value.

Today, Riviera builds the most advanced boats ever, exporting around 55% of our annual production to a global dealer network spanning every continent. We design and build luxury motor yachts from 39 to 78 feet in length across six distinct model collections. Owners can choose from the proven blue water Flybridge range, stylish and sophisticated Sport Yachts, the sporty and adventurous SUV series, long-range Sports Motor Yacht designs, the luxurious new Motor Yacht or the classic Belize Motor Yachts. New models designed to inspire our owners' boating lives. It's all part of a deep-seated culture of customer care which goes beyond after-sales support and maintenance. When you acquire a Riviera, you join a family of fellow owners worldwide sharing adventures and advancing their boating knowledge and experiences in harmony with us.
